01 | PROFESSIONAL PROFILE

Life Sciences professional with an MSc in Biotechnology, BSc in Zoology and Post Graduate Diploma in Clinical Research, complemented by one year of pharmaceutical industry experience. Possesses a strong academic foundation in biological sciences, molecular biology, cell biology, genetics, human anatomy, physiology, microbiology and biochemistry. Knowledgeable in biological processes, scientific principles and the interpretation of biological and clinical information. Experienced in clinical documentation review, data verification, discrepancy identification and quality assurance activities. Combines scientific understanding with analytical thinking, attention to detail and documentation skills to support accurate information review, research activities and quality standards.

02 | EDUCATION

Post Graduate Diploma in Clinical Research
Jehangir Clinical Development Center Pune, Maharashtra – 411001
June 2023- September 2023

Master of Science (MSc) – Biotechnology
Parul University, Vadodara, Gujarat- 391760

2021–2023

Bachelor of Science (BSc) – Zoology
Shri Shiv Chhatrapati College, Junnar, Maharashtra- 410502

2018–2021

03 | CORE COMPETENCIES

- Applied knowledge of biological sciences and biotechnology
- Developed understanding of human anatomy and physiology
- Utilized medical terminology in clinical and scientific contexts
- Reviewed and interpreted clinical documentation
- Performed clinical data validation and verification
- Analysed scientific information and biological data
- Applied medical coding knowledge: ICD-10-CM, CPT and HCPCS
- Maintained data accuracy and supported quality assurance processes
- Followed ICH-GCP guidelines and standard operating procedures (SOPs)
- Identified discrepancies and supported documentation quality improvements

04 | PROFESSIONAL EXPERIENCE

Trainee Quality Assurance

Pregna International Limited | Daman, India-396210
October 2023 – October 2024

- Gained practical experience in clinical research documentation, data review and quality assurance.
- Reviewed clinical records and Case Report Forms (CRFs) for accuracy, completeness and consistency.
- Performed data verification, discrepancy identification and documentation checks.
- Worked with clinical research teams to support study coordination and compliance with ICH-GCP and SOPs.
- Supported quality documentation, audit readiness and regulatory compliance activities.

05 | INTERNSHIP EXPERIENCE

Medical Coding Intern

YSP Infotech | Shirdi, Maharashtra- 423109
March 2025 – August 2025

- Reviewed medical records and clinical documentation for accuracy and completeness.
- Applied ICD-10-CM, CPT and HCPCS coding guidelines during training.
- Developed familiarity with medical terminology and clinical documentation.
- Gained exposure to medical record interpretation and coding practices.

06 | PROJECT EXPERIENCE

Women's Healthcare – Hormonal Intrauterine Device (IUD) Clinical Study

Project overview: Clinical study evaluating the safety and effectiveness of a hormonal intrauterine device that releases levonorgestrel into the uterus, with long-term participant follow-up.

Pregna International Limited | October 2023 – October 2024

Areas of contribution

- Possess knowledge of Clinical Trial Phases I–IV, including their objectives, design, conduct and progression.
- Supported clinical trial activities from site initiation through ongoing study conduct.
- Worked with site initiation documentation and essential clinical trial records.
- Assisted with IRB/IEC document preparation and submission activities.
- Coordinated site visits and followed up on site requirements.
- Reviewed clinical data and supported identification and management of discrepancies.
- Supported audit readiness and maintenance of study documentation.
- Supported coordination of scheduled follow-up activities and biological sample collection for study assessments, where this formed part of assigned responsibilities and is approved for disclosure.
